# USE THE EASYPARK APP
to pay for parking

easypark

Pay easy without coins!

Extend the parking time over your phone!

The most used app in Europe!

easypark

The easy way to pay for parking with the EasyPark app

Download the EasyPark app from the following link **www.easypark.si/sl**, park your car and pay using your mobile.

ATTENTION: In Maribor the signs for the area codes for mobile parking payment may differ from each other. Area codes (311, 312, 313) can be found on traffic signs and car park ticket machines.

Paying using SMS payment

Send the AREA CODE [space] the whole LICENSE PLATE [space] #PARKING TIME to number 031 20 90 20.

Example for 1 hour of parking:

312   MBAB123   #1

— # and parking time
— License plate without spaces
— Appropriate area code

The parking starts after your receive the message.

All parking spaces in the white zones are payable on working days between 8am and 7pm. The cost of parking is indicated on the traffic signs and parking ticket machines in the white zones. The first 10 minutes of parking in the white zones are free of charge.

About 10 minutes before the parking expires, you will receive a notification about the expiration and the possibility of extending the parking time. The parking can be remotely extended via SMS or in the EasyPark app.

The EasyPark app works on parking lots in more than 800 cities across Europe. Among the Slovenian cities it can be used in Bled, Bohinj, Fiesa, Grosuplje, Izola, Kobarid, Komen, Kranjska Gora, Lucija, Maribor, Piran, Portorož, Ptuj, Seča, Sežana, Slovenj Gradec and Strunjan.

When the parking is paid via SMS or EasyPark app, the parking authorities can easily determine if the parking is paid and for how long. Therefore, the fear of a fine for the absence of a parking ticket is redundant.
